PROFESSIONAL SUMMARY

Full Stack Developer experienced in building production web applications, backend services, and AI-powered features, and running them on Google Cloud with Docker, Kubernetes, and GitOps. Hands-on with authentication, RBAC, and production troubleshooting.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Java, Python
Frontend: React, Next.js, Angular
Backend: Node.js, NestJS, Spring Boot, FastAPI, REST APIs, Microservices, RabbitMQ, Redis
Cloud & DevOps: Google Cloud Platform (GKE, Cloud Build, Secret Manager, IAM), Kubernetes, Docker, ArgoCD, GitOps, CI/CD, AWS EC2
Data & AI: PostgreSQL, MongoDB, Qdrant, RAG, Gemini, LangChain
Security: RBAC, JWT, OIDC, Google Cloud Identity Platform, HTTP-only cookie sessions

EXPERIENCE

N51 Invest PTE LTD **Dec 2024 – Present**
Full Stack Developer | Cloud & DevOps *Singapore (Remote)*

- Set up production infrastructure on Google Kubernetes Engine (GKE), moved backend workloads to Docker, and introduced GitOps-based CI/CD with ArgoCD for easier scaling and management.
- Built a RAG-based chat platform with FastAPI, Qdrant, and Gemini that lets customers ask questions about the company's plans and services.
- Built a multi-layer access-control system for a secure Dataroom handling sensitive documents, combining NDA checks, invite-based identity verification, and role-based permissions (RBAC).
- Built an internal ERP with Angular and Spring Boot to simplify IT operations and bring company resources into one place.
- Work on a microservices platform (Next.js, NestJS, API gateways, MongoDB Atlas, PostgreSQL, Redis, RabbitMQ) on GKE; troubleshoot production issues across Kubernetes deployments, CI/CD, ingress, managed certificates, GCP IAM, and database and messaging connectivity.
- Worked on modernizing authentication (Next.js backend-for-frontend, server-side auth with HTTP-only cookies, JWT validation, OIDC with Google Cloud Identity Platform) and audited RBAC and authorization boundaries across 15 microservices, 2 Next.js portals, and 2 NestJS API gateways.
- Worked with client teams across several countries on onboarding flows, KYC steps, and API and webhook integrations.
- Found and fixed multiple security issues, tightened access control, improved reliability, and wrote unit tests for backend services.

Laabhum Social **May 2024 – Nov 2024**
Full Stack Developer *Chennai, Tamil Nadu*

- Worked on the Profile and Settings modules, handling user preferences and data management.
- Led Laabhum's stall at CODISSIA (Tamil Nadu Startup Thiruvizha 2024): set up the booth, ran product demos, and engaged entrepreneurs and stakeholders.

Gamepay **Jun 2023 – Apr 2024**
Full Stack Developer *Singapore (Remote)*

- Built features and fixed bugs across the stack using the team's existing frameworks; helped troubleshoot issues in a structured development process.

PROJECTS

- **Textile Showroom E-Commerce Site** (React.js, Spring Boot 3, AWS EC2): built and deployed a full-stack site.
- **Hybrid Homomorphic Encryption** (AES, Paillier): hybrid AES–Paillier system for secure data handling.

EDUCATION

Kongu Engineering College **2020 – 2024**
B.E. in Computer Science | CGPA: 8.34 *Erode, Tamil Nadu*
